

SiliconExpert Part Search

Search 300 million components for cross references, lifecycle, parametric, obsolescence forecasts, regulation compliance and inventory data. A subscription to Part Search gives you instant access the data you need to make better decisions with an easy-to-use search bar.

Electronic Component Data Solution powered by 400+ engineers and experts; Centralizing and normalizing component data to ensure accuracy, mitigate risk, and save you time.

- Lifecycle Status
- Average Lead Time
- Package Type & Information
- Datasheets & Revision History
- Product Type
- Crosses & Replacements
- Part Options
- Part Masks
- Introduction Date
- Part Images
- Family Name
- Part Markings
- Lifecycle Risk
- Part Lifecycle Stage
- Multi-Sourcing Risk
- Inventory Risk
- Lead Finish (Plating)
- Supplier Description
- Pin Count
- Part Status
- Package Material
- Mounting Type
- JEDEC Standards
- REACH & SVHCs
- Material Declarations
- WEEE Compliance
- Cage Codes
- Introduction Date
- Rad Hard
- Parametric Data
- Estimated Years to EOL
- Maximum Reflow Temperature
- Regulation Compliance
- Certificates of Compliance

✓ **Make Informed Part Selection Decisions**

Find comprehensive data on millions of components including passives, semiconductors, and electrometrical components with one easy search. Compare up to 8 components side by side to simplify decision making.

✓ **Avoid Obsolescence Risk**

Easily identify parts at risk and gain insight into electronic component lifecycle status, multi-sourcing, available inventory and predicted years to end of life data.

✓ **Ensure Compliance**

Identify non-compliant components with data for environmental and governmental legislations such as REACH, RoHS, WEEE & Conflict Minerals
